Dear Citizens' Assembly:

When I was 12 years old, my great uncle from Switzerland explained proportional representation to me and I have been on the bandwagon ever since - I'm 75 now.

It is the only truly democratic system, making every vote count and every voter's voice heard. I am so glad it is finally being brought before the public. I am still learning about STV and MMP - new ideas to me.

I fervently hope P.R. goes to referendum and is adopted, eventually for all of Canada. (It would also be a huge improvement for the U.S.)

Thank you

Yours truly,  
Margaret Robnick
