I am sorry that my pen hand is not very good.
Please excuse the mistakes in what my hand is writing.

Dear Sir; I wish to give you all my help; in what I see, and believe; is required to have a good Governing body.

I believe that our Majority Vote is O.K; with the exception of Power used to encourage Voter's decision. E. Money; Union Powers; or any gift giving.

I am not able to discuss the ins. and outs of an electorate; I'm not qualified; to debate the problems.

However; As long as the People have no say in our governing; we will never have Honest Governing.

The One big trouble with the Vote Count, is that The larger population; with the single Vote Count, lets the populated Towns, and Provinces Control the Vote Count; It command a % age n. of all parts.

This would be; by far, the most fair. As it is now the lesser Communities have no say what so ever. Our elected members; Have a job to do. This is very important; why should Mr. pay them; if they are slacking?

Their jobs are to work for the province, or County; to affect the very best returns, for their efforts.

The Law Should read; that not doing so could relieve them of their position.

For too long; have the different parties see-sawed back & forth; with little accomplished.

②

I believe in the Citizens Assembly; And thank each member for the devotion to the Province.

When we have good Provincial Governing;

Let us hope that the Dominion Governing

Can be altered, to one & the same.

I'm very disgusted with the tactics in Ottawa.

The privatization of so many things; Provincial and Dominion; Is a certain signe that they are sharking their duties, at a cost to Canada and the Provinces

Taking the attitude; that the U.S.A. is best for Canada?!! Would you like to live in Russia?!!

Well, the U.S. is now a Dictatorship; which you will be putting up with, within this year.

Monkey Valley in the U.S. is shrinking fast,

as many will go down just as fast, because we are dependant on U.S. trade

The Free Trade has not helped at all; it only opened the door for U.S. goods that Out price Canadian goods; a glut on the market.

Since the end of W.W. II; we have lost our position in world power; Where did all the Brains go to?!! Early there are some smarties left that could help to bring back a lot of credibility.

We have been bucking like U.S.A.; who want all things that make money in their hands; And block our Governing; Well they are not God; Besides, if their aim was for good relationships; I'm sure we would appreciate it far more;

May this be of some use and Help.

Sincerely John Middlemass -
