To The Members of the Assembly:

I advocate proportional representation because then my vote will count towards electing the party of my choice. So often it must be to vote someone out of office the way it is now. This leads to dismay, disgust, and finally apathy.

With pro-rep the elected would have to communicate instead of shouting past each other. Then perhaps more people on the fringe would have their concerns listened to.

The sooner we change our present voting system the better it will be for all British Columbians and Canadians.

Yours truly,
