Citizens' Assembly on Electoral Reform
2288 - 555 West Hastings Street
Vancouver B.C.

I am writing in support of Proportional Representation feeling that changes to our electoral system are overdue. Clearly, it would be more fair if a party's share of seats equaled its share of province-wide votes. Having to deal with two votes in the process, one for a local rep and one for a favored party, is acceptable and is long practised in European countries.

Let's go for true democracy and free the vote!

Yours truly,

Uli Steghaus
